

## DESIGNATION OF A HEALTH MANAGER ON EACH SHIP:

The tour company has designated the ship steward as the “health protocol officer” who will ensure updates to the rules and compliance with the proper procedures on each ship, such as:

- Procuring and managing protective gear and cleaning products (masks, gloves, hydro-alcoholic gel, disinfectants, soap dispensers, Baccide, etc.) for all passengers and all personnel.
- Making sure the procedures for cleaning all workplace and equipment surfaces are followed.
- Making sure passengers and crew members follow the preventative and social distancing measures in place.
- Ensuring the health and safety of passengers and the crew members, and make sure the health protocol is followed fully.
- Ensuring the health protocol is followed for anyone showing symptoms or who is at risk of contamination.

## ON BOARD:

### **Equipment:**

- Each passenger will have their temperature taken when embarking. Any passenger whose temperature is above 100.4° F (38°C) will not be allowed on board. Each ship is equipped with an infrared thermometer.
- Hydro-alcoholic gel will always be available in the entryway, restaurant, and each cabin.
- Masks and gloves will be available systematically.
- Aniospray products (quick-dry surface disinfectants) will be available on all the ships.

### **Restaurant and service:**

- Two service times will be set up for breakfast, lunch, and dinner so that passengers will have a distance of one meter between them in the restaurant. Families and parties traveling together will be allowed to sit closer together, but only as groups of eight people.
- Passengers will have the same, reserved seat for the entire cruise.
- Optimization of disinfectant products and hygiene checks.
- Table service will replace buffets for lunches and dinners.
- Breakfast choices will be reduced and waitstaff will be available to curtail use of utensils by passengers.
- Hygiene rules will be reinforced during deliveries.
- Hygiene rules for crew member meals will be reinforced.
- The kitchen will be fogged.

### **Bar :**

- Napkins and fingerbowls will no longer be placed on tables.
- Fruit, cookies, cocktail snacks, and appetizers will be served individually and on request.
- Passengers will no longer be able to borrow books, magazines, and board games.
- Hygiene rules concerning crew-member meals will be reinforced.

**Accommodation services:** Social distancing measures will be indicated on the floor as markings in each waiting area (gangway, reception hall, bar, restrooms, activity areas).

- Common areas will be set up so that there will be at least one meter between each person.
- Colored bracelets will help manage groups in the restaurant, lounge and bar, and during excursions.
- We recommend passengers wear masks in the common areas.
- Passenger traffic on the ship will be directed to avoid crossings.
- Preventative measures will be displayed on onboard signs.
- An increase in cleaning of customer areas and cabins:
- Daily spraying of disinfectant.
- Disinfection of common interior surfaces several times a day (door handles, buttons for automatic doors, etc.).
- Housekeeping staff to wear gloves and mask for the service. Gloves to be changed between each cabin.
- Subcontractors who are not wearing masks will be refused access. Preventative measures must be followed.

### **Laundry:**

- Bed sheets, towels, uniforms, and other clothes will be washed at a temperature high enough to kill the Covid-19 virus (60°C).

### **Air-conditioning :**

- Individual and separate air-conditioning system for each cabin.

**Navigation :** The pool and spa baths will be closed.

- Daily disinfection of the common outside areas (external digicode pad, gangway, etc.).

### **Excursions :**

- Distribution of masks, gloves, and gel before departure of each excursion.
- Social distancing measures will be set up in the coach transport and during visits.
- Use of audio headphones during excursions, allow you to follow the guide's explanations while keeping distance measures.
- Masks are recommended.

**General procedures for crew:** Crew member health will be checked before returning to the ships using specific questionnaires and by taking temperatures.

- Crew members will be made aware of the current hygiene rules.
- Person-to-person greetings are prohibited (hugging, kissing, shaking hands).
- Hands must be washed several times a day with soap and water or with hydro-alcoholic products.
- Cough or sneeze into the elbow and not the hand.
- Throw paper tissues into the trash bin and wash hands.
- Avoid off-ship recreational outings during the epidemic.
- Observe one-meter social distancing.
- Everyone must wear a mask.
- Preventive measures, including the wearing of masks, will be displayed on signs in the area reserved for crew members.

# WORRY-FREE TRAVEL ON BOARD OUR SHIPS

The safety and wellbeing of our passengers remain our top priority. Our teams have set up precise actions that attest to our seriousness in protecting our valued customers.

We have engaged Bureau Veritas for the “SAFEGUARD” certification of our ships. The Safeguard Certification Label ensures the proper application of preventive, sanitary measures – which have been subject to a rigorous auditing process – and confirms that our crew members have been thoroughly trained to implement them.

## BEFORE THE CRUISE:

Each passenger will receive a questionnaire before their cruise to ensure that they are not sick and have not been in contact with people who currently have the virus.  
#These questionnaires will be on the web site for easy access.

## SAFELY JOINING US ON BOARD:

The steward, who oversees the smooth running of the cruise, is the designated, onboard health referent and will ensure the proper application of the following health and safety measures:

Please bring your EU Covid certificate approved by the European Union (digital or printed) indicating

1. Fully vaccinated, dating back at least 14 days and by one of the vaccines recognized by the Eu.
2. OR immunity confirmed by a positive PCR test of more than 11 days and less than 180 days ago
3. OR a negative PCR test of less than 72 hours or a rapid antigen test of less than 72 hours (no self-test). *Our US Covid Certificate and US vaccines will be recognized and accepted.*
